Note: 1. All colours shown are close to the actual Clean COLORBOND™ prepainted steel colour as modern printing techniques permit.

2. SRI figures are approximate values only - based on paint formulation and/or metallic coating thickness.

3. SRI is calculated using ASTM E1980-01 and Medium Convection Coefficient (12) value reported.

\* Solar Reflectance Index (SRI) – ASTM E1980

\* SRI is calculated using ASTM E1980-01 with Medium Convection Coefficient (12) value reported. This data is approximate values only - may vary based on paint formulation and/or metallic coating thickness

The Clean COLORBOND™ steel colours shown in the leaflet have been reproduced to represent actual product colours as accurately as possible. However, we recommend you check the chosen colour against actual samples of the product before purchasing as varying light conditions and limitations of the printing process affect colour tones.
